J2PONLINE PRICING OUTLINE

SMALL - MEDIUM WEBSITE
$950 - $2500

This package includes a website with up to 20 main pages. This has dynamic content (AJAX,Flash, etc) but the level of implementation can always be negotiated..

This will ensure a quality design with great validated xhtml and css markup. On-page SEO optimizations are included with this package also. Any major additions may be extra, ie portfolio section, photo albums, slideshows, banners, etc but we are willing to negotiate with you.

1-2 Week EST turn-around time after all content/copy has been sent by the client. 2-4 weeks of post-launch support is included.

HOSTING WITH J2PONLINE
$90 / year

We also offer business level web hosting with competitive rates on bandwidth and this includes registration of your domain name, 20 email addresses, whois privacy, and other extras. Inquire within.

J2PONLINE PRICING OUTLINE

BUSINESS WEBSITE
$4000+

This package includes a website with as many pages as needed and also covers any CMS types of websites. CMS websites include Shopping Carts, Online Forums, or anything else that falls in the Content Management realm. It's basically anything that requires a database.

We include dynamic content comprised of whatever AJAX, Flash, Rails, and PHP components that are needed to make the concept we share work.

Design direction and stock imagery is also provided as an extra value for you.

Also if you want to edit your own content then, we got you covered. This additional service is feature complete with an easy to use interface.

We do have special pricing options for blog-based websites, ask about them!

4-6 weeks of post launch support is included with a 3-4 week EST turn-around time.
